“ *The best Granny in the whole world she will be forever loved and missed. I know that she is where she wants to be in heaven with the rest of her family, although she will be missed here, but she will always be looking over us from above. It was a hard phone call to receive today, but I know that she has told me for years that she was ready. I love and miss her and always will. I will forever proudly be called Tammy Girl as she has called me all my life.. I was so fortunate to have her in my life for over 40 years and for my boys to have a great granny that they loved. Unfortunately I was just planning a trip to see her this coming weekend but I can not regret that I haven't gotten there more often because she has always told me that she lived her life and I needed to live mine... and that the boys education was more important and having a job to make it through life. I will always remember my Granny!! She was a great and wise woman who taught me great values in life and what was important in life.. She is the one person who was a constant in my life and always steered me down the right roads and if I slipped along the way she was there to get me back on the right road. I LOVE YOU GRANNY!!*
