“ I used to love riding in her car (subaru) with her back when she was young. (You know back when she was in her 70s!).We would be on back roads and she would be chatting away running about 60. We would almost get air off the hills we went over. Good times. Awesome lady and smart as they come.

“ Aunt mid and I shared a very special day. We went to town, she loved to show me off my Dad's girl. She heard a pop sound. Andie where are you? Huge tears running down my face, (over here Aunt Mid, my head is going to be cut off in the guillotine). What happened she replied? My dad is going to have me beheaded. She laughed so hard big tears were pouring down her face. She asked me How did you manage to get a full tube of airplane glue in your beautiful brown hair? I just walked past and it exploded. Now I have to explain why I need a hat to school. She immediately said we girls have our own defense mechanisms at moments like these. She went next door to the gas station and she had my hair under the pump and got some shampoo and I just knew she was going to drown me. Finally she managed to get it sparkling clean. She said you got to remember remember when life throws you a sticky situation like we just endured, stop and think the best way is to ask for help, she was the most fun person to spend time with. She will be greatly missed by anyone whom knew her.your niece Andie Duzan Sullivan. Kisses.
